

GUTTULA DURGA SHANKAR

React Native Mobile Developer | Android | iOS | Full Stack

durga369shankar@gmail.com · +91 6303449205 · Rajahmundry, Andhra Pradesh
Portfolio: durga-shankar-portfolio.web.app · GitHub: github.com/shankar379 · LinkedIn: durga-shankar-react-native-developer

PROFESSIONAL SUMMARY

React Native Developer with nearly one year of professional experience building and maintaining production Android and iOS applications at Elevents Metaestate Pvt Ltd. Shipped 7 white-label app flavors from a single React Native codebase — including Tickets99, EventTitans and Poultry India — plus the QuickStaff staffing platform, with 35+ screens and 100+ reusable components. Experienced in React Native, TypeScript, REST APIs, Firebase, AWS and mobile performance optimization, with hands-on work in payments, NFC, Bluetooth printing and biometric authentication. Also skilled in full-stack web (Node.js, MongoDB) and interactive 3D (Three.js, Blender). Regularly uses AI-assisted tools (Claude Code, Cursor AI, GitHub Copilot) to improve development speed and code quality.

TECHNICAL SKILLS

Mobile	React Native, Expo, React Navigation, Android Studio, Gradle, EAS Build & Submit
Languages	JavaScript, TypeScript, Java, Kotlin, Python
Backend	Node.js, Express.js, REST APIs, JWT Auth, Python FastAPI
Databases	Firebase Firestore, MongoDB, PostgreSQL, SQLite
Cloud & DevOps	AWS EC2, AWS S3, GitHub Actions, CI/CD
Auth & Security	JWT, OAuth2, OTP, Face ID, Fingerprint, Secure Storage
Payments	Razorpay, Stripe, Google Pay, Apple Pay
Hardware	Bluetooth, NFC, QR Scanner, Camera APIs, ML Kit
Realtime & APIs	WebSockets, Push Notifications, Twilio, Google Gemini API
3D & Creative	Three.js, Blender, Unreal Engine, Figma
Tools	Git, GitHub, Expo CLI, Firebase Console, VS Code, Cursor AI, Claude Code, GitHub Copilot

PROFESSIONAL EXPERIENCE

React Native Developer Elevents Metaestate Pvt Ltd, Hyderabad
June 2025 – Present

- Develop and maintain Android & iOS apps using React Native and Expo, shipped via EAS Build.
- Build and manage 7 white-label flavors (Tickets99, EventTitans, Poultry India and more) from one codebase, each with its own branding, configuration and store listing.
- Built 35+ screens and 100+ reusable components across the shared codebase.
- Migrate native Android features into the unified React Native codebase.
- Integrate REST APIs, payments (Razorpay/Stripe), NFC, Bluetooth printing, QR scanning and biometric authentication (Face ID / Fingerprint).
- Configure CI/CD with GitHub Actions and EAS Build; optimize performance, memory and rendering.
- Publish and maintain apps on Google Play and the Apple App Store; collaborate with AWS/Node.js backend teams.

Key products: Tickets99, EventTitans, Poultry India, QuickStaff

Freelance Full Stack Developer

August 2023 – May 2025

- Built full-stack applications with React, Node.js, Express.js, Firebase and MongoDB.
- Designed RESTful APIs, authentication and role-based access; handled deployment and cloud hosting.

KEY PROJECTS

White-Label Event Apps (Tickets99 · EventTitans · Poultry India)

React Native, Expo, TypeScript, Firebase, AWS

One React Native codebase shipped as 7 branded flavors, each with its own store listing. 35+ screens, 100+ reusable components, payments, NFC, Bluetooth printing, QR check-in and biometric authentication; published to Google Play and the App Store.

QuickStaff — Event Staffing Platform

React Native, Node.js, PostgreSQL, Python FastAPI, AWS

Multi-role platform with dashboards for workers, agencies, organizers and managers. Facial verification, in-app wallet, attendance tracking and push notifications on a scalable AWS backend.

Multi-Printer Bluetooth Integration

React Native, Bluetooth Classic, ESC/POS, ZPL

Cross-platform printing across Zebra, TVS, SUNMI, Brother and DCode printers with auto-reconnect and device discovery; reused across multiple production apps.

MediVoice — Medicine Reminder & Assistance Platform

React Native, Next.js, Node.js, MongoDB, AWS, Firebase, WebSockets, Twilio, Google Gemini

Multi-role platform (patients, sellers, doctors) with reminders via local alarms, TTS voice alerts and push notifications,

missed-dose escalation through SMS/automated calls (Twilio), and an AI chat assistant with persistent history. CI/CD via GitHub Actions, Docker and AWS EC2.

SETHU Web App

React, Node.js, Firebase

Public-facing storytelling site serving 5k+ monthly users with optimized performance and responsive design.

Time Table Generator

Python, Django, SQLite

Constraint-based scheduling engine that automates academic timetables, cutting generation time from weeks to hours with high accuracy.

Student Communication Platform

React, Firebase, Cloud Functions

Real-time messaging and announcement hub supporting 200+ concurrent users for university collaboration.

Deep Crack — Image-Based Crack Detection (B.Tech Project)

Python, Flask, MobileNet, CNNs

Transfer-learning crack-detection workflow with data augmentation and a Flask interface for image upload and prediction visualization.

3D & INTERACTIVE DEVELOPMENT

- Build interactive web-based 3D experiences with Three.js and React (this portfolio runs a custom WebGL scene).
- Create 3D models, animation and cinematics in Blender; interest in Unreal Engine and immersive workflows.

EDUCATION

B.Tech, Computer Science & Engineering Rajamahendri Institute of Engineering & Technology (JNTUK)
2021 – 2025

CERTIFICATIONS

- Deep Learning — Young Minds Co, Vijayawada
- Django with Machine Learning — DATA POINT, Hyderabad
- Cloud-based DevOps — Datavalley, Hyderabad

ADDITIONAL

- YouTube Creator — "Code and Create" (programming & 3D content).
- Strong interest in VFX, game development and immersive technologies.
